### ODELL, HE'S SAYING NOTHING.

FACE WELL TANNED.

For One Thing He Won't Ask Hooker to Resign-Tom Hamilton, on the Same Ship, Victim of a Floating Mayoralty Boom-He's in the Hands of the Party.

Chairman Odell got back yesterday from his four months vacation in Europe, wearing a fine coat of tan. He arrived on the American Line steamer St. Louis, which did not get up to her pier until nearly 8 o'clock last night. With him were his wife, his son Bryant and his daughter Estelle. They have been gone since February and traveled over Italy, part of Russia, Ger-

many, Switzerland, France and England. On the St. Louis also was Thomas L. Hamilton, who has been reputed to be the chairman's candidate for Mayor. Mr. Hamilton got a very noisy greeting from friends who went down on the tug Gerry that was meant to impress the chairman, if it didn't. But Mr. Odell said that he had no candidate just at present, and, furthermore, that he didn't know anything about politics, as every politician has to say when he gets back from Europe with his pockets full of cable despatches.

In fact, the amount of tan which Mr. Odell has accumulated abroad was nothing to the amount of ignorance he was found to have developed concerning everything. About the Equitable, in which his friend E. H. Harriman was so deeply interested at one time, he said he knew scarcely anything and wasn't at all concerned.

A few friends of Mr. Odell's went down on the revenue cutter to greet him, but there was no tugload of enthusiasts such as greeted Mr. Hamilton. The plan for a party to be composed of all the Odell leaders was frowned upon at the last minute by 'Cal" McKnight, the chairman's representative. Among those on the cutter were Senator Goodsell, Robert J. Hill, William Halpin, Samuel Strasbourger, Moses McKee, Lemuel E. Quigg, Col. Reuben Fox, Mr. McKnight, Hiram Odell, the chairman's brother, and Herbert, his eldest son.

Their approach to the St. Louis was unnoticed, because Mr. Odell was on the other side of the ship watching the Hamilton demonstration. On the way up the hay he had talks with Mr. McKnight and Mr. Quigg, but he was still ignorant when the reporters approached him. He said that he had not met Mr. Hearst or Mr. Hamilton

"I don't know where Mr. Hearst is or anything about him, and Mr. Hamilton I only met at the station when we took the train for the boat, said Mr. Odell. Somebody asked him if he had found a candidate

"Not a one. There weren't any running "Not a one. There weren't any running around that I could see. I don't know anything about politics. I shook all that when I went away. I don't even know what Gov. Higgins's recent appointments are."

"Will there be a straight ticket or fusion for the Republicans?" he was asked.

"I haven't the slightest idea. I'll have to look the whole thing over first," was his answer. Mr. Odell's interviewers did get from him that he had expected the cheap

answer. Mr. Odell's interviewers did get from him that he had expected the cheap "My understa

understanding was that the bill would pass, as it was an organization measure," he said, "but still I don't want to discuss that matter until I know more about discuss that matter until I know more about it. As for bringing it up again at a special session, I don't know what Gov. Higgins's ideas are and don't care to discuss that, either."

wither."

Mr. Odell said that he didn't see why any one should have been waiting for him to decide the Hooker case. When told that some people expected him to induce Justice Hooker to resign through a personal appeal. Mr. Odell said:

"I certainly sha'n't do anything of the sort. I did not appoint Judge Hooker."

Mr. Odell pleaded complete ignorance as to what the Citizens' Union had done since he went away.

gation of it."
"You seem to forget that I'm a private "You seem to forget that I'm a private citizen returning to my native land, "was the reply. "I know very little about the trouble, except I see by the papers to-day that they've made some changes. I know Mr. Morton only slightly. I've got a policy in the society—that's about all that I know."

Of the Black-Platt coalition Mr. Odell said he had read in some of the newspapers somewhere, but didn't care to discuss it. He said he had met both the Pope and the King of Italy. The Pope, he said, made a very pleasant impression upon him.

The Odells went from the steamer to the Fifth Avenue Hotel. They will go to Newburgh this morning.

burgh this morning.

Hamilton, who was accompanied Mr. Hamilton, who was accompanied by his wife and daughter, said he was returning from a seven weeks trip undertaken mostly for the purpose of visiting his relatives in Scotland. In regard to the story that he had gone to Paris to help out the McCadden circus, Mr. Hamilton said that it was not true

"I have a small interest in that circus, but that is all," he said. "I spent some but that is all," he said. "I spent some time in Paris, but I did not know that Mr. Odell was there at the same the was there at the same time and we had no meeting there or any where else, as "Are you a candidate for Mayor," he was asked.

asked.
"That is up to the organization" said
Mr. Hamilton, walking away from the
chairman. Mr. Hamilton's friends on the
tug wore pictures of him and carried flags. which seemed to please him They cheered for "our next Mayor," so Mr. Odell could

### AFTER LABOR GRAFTERS.

Chicago Grand Jury Will Try to Clear Up Serious Charges To-morrow.

CHICAGO, June 10 .- Fear that he might incriminate himself prompted John C. Driscoll to refuse to answer some questions concerning graft in labor troubles put to him to-day by Assistant State's Attorney Fred Fake. The former secretary of the associated

teaming interests, who was wanted as a

witness before the May Grand Jury, but

could not be found, visited the State's attorney's office to-day and was promptly served with a subpæna to appear before the Grand Jury on Monday for an exhaustive review of strike troubles and graft charges. Driscoll's appearance before the Grand Jury is expected to clear up to some extent at least the serious charges of graft made by the union leaders, Cornelius P. Shea and Albert Young, before the Grand Jury, implicating him in an offer of \$10,000 to call a strike against the mail order house Sears, Roebuck & Co., another offer of \$20,000 to call a strike against the Fair Store and other similar offers, in which, was alleged, he was the go-between for

It was alleged, he was the go-between for the negotiating parties.

There were no spectacular developments in the strike situation to-day. It was a day of rest from strike worriments for the em-ployers and their lawyers. No new peace moves appeared on the surface and strike leaders confirmed the statements of the employers' representatives that no over-tures have been made by either side and that none is contemplated.

Receipts at the Five Largest Post Offices. WASHINGTON, June 10 .- The gross postal receipts at the five largest post offices of the country for the month of May, as compared with the corresponding month of 1904, show an increase of 13.4 per cent. in that period. At New York the receipts in May aggregated \$1,347,367, as compared with \$1,136,616 in May, 1904, a gain of \$210,750, or 18 per cent. Chicago had receipts of \$952,112, as compared with \$854,113 a year ago, and Brooklyn \$190,054 in May, 1904, as compared with \$172,554 this year.

#### LIVE TOPICS ABOUT TOWN.

A flock of English sparrows was feeding contentedly in the grass on the Broadway BACK FROM EUROPE WITH HIS side of the City Hall park the other day They paid not the slightest attention to the hundreds on the way to their day's employment, but chirped to one another and occa-

ment, but chirped to one another and occasionally fought over a choice worm. Suddenly from a tree over by the Court House there descended a hawk, who had been eyeing the sparrows from his lofty perch. The sparrows were taken unawares and the hawk seized upon one luckless individual and flew to a nearby tree.

He paid no attention to those who had seen the tragedy and who stopped a moment to watch him as he ate, but devoured the bird at his leisure. This accompushed, the hawk flew to the top of a flagpole on the Post Office, where he made an elaborate toilet.

A pet parrot escaped from a house in Central Park West a few weeks ago and its owner advertised for it. The next day

a woman called at the house and said that she had the parrot at her home and would like to keep it for a week or so.

"You see," she explained, "I have a little girl who is very ill. The parrot flew into her room and perched upon the head of the bed. The child was so delighted that the sed. The child was so delighted that she seemed to improve at once. I amafral d that she will have a relapse if the bird is taken away just now." The parrot was allowed to remain until the child got well.

A well known financier was wanted by a friend one night not long ago. The telephone was set ringing about midnight and after ten minutes a woman's voice in sleepy tones asked who had disturbed her slumber. "This is Mrs. Blank," said the voice, "what

do you want?"

"Is Mr. Blank home?" asked the friend.
"Is Mr. Blank home? Well, I should just guess he is." was the reply. "Where do you think he would be at this time of night?"

Transient patrons of a Hungarian restaurant in Union Square just off Fourteenth street have all been curious about a chair which has been draped in mourning for two weeks beside a table on which a fresh bouquet of flowers is placed daily. Both are in memory of David Jones Dan-nat, the millionaire recluse of Union Square, who died the other day after sitting at the same table daily for twenty years. same table daily for twenty years.

The limited number of plays acted by the stock companies is not altogether due to the fact that there are so few worth reviving.

"None of the managers of the stock company theaters," said a play agent, "will use any drama that is not liberally provided with good lithographing. They are just as eager about the 'paper,' as it is called, as about the quality of the play. For this reason it is often easy to put into the stock theaters some new failure merely because there is a lot of printing."

The Panama hat, if it be worn at all this season, must be worn in only one way by any man who makes the least pretension to fashion. The brim must be turned to fashion. The brim must be turned up in front, straight away from the face of the wearer, and down behind, as if it were intended to protect the back of his neck from rain and sun. This is the method of wearing the hat affected by all English undergraduates in the schools and colleges, and some of them have been over here this year to show just how the thing should be done.

The experiment of having a woman in theater box office has been tried and found satisfactory. The experiment was made at the Bijou, which is closed for the season, and when it reopens the assistant treas-urer, an amiable and patient young woman, will be on duty again. Al Campbell, the manager and treasurer of the house, in-stalled the young woman, and her work has been satisfactory not only to him but to the women who went there to purchase

Long Island farmers bringing their products to New York for sale have found a way of increasing their own earnings and as to what the Chizens' Union had done since he went away.

"How about the Equitable, Governor?" somebody asked. "It's been said that you would bring about a legislative investigation of it."

way or increasing their own earnings and conveniencing some of their patrons. The great wagons laden with vegetables no longer make the trip straight from the ferry to the downtown market. The latest of them to arrive make stops at different restaurants with which they have regular arrangements. The proprietors are spared the trouble of going to market, and the farmers who follow this practise are able to get better than wholesale prices for their wares. their wares.

> the supervision of his favorite girl cousin, and once a week she came to dine with him and observe his progress. Incidentally she constituted herself a bureau of supply and saw that he was supplied with everything needful-except dish towels. Somehow, no matter how elaborate her shopping plans, she could not remember the towels and for a while he was reduced to using, an old sheet.

Then came a day when he rose in revolt and decided that he would keep house no longer. So far as the cooking was con-cerned he kept his word, and the cousin was invited to dine at a restaurant instead. was invited to dine at a restaurant instead.

The first evening the new order went into practise the cousin turned up, her face aglow. "I just know that you can't tell what I have in this bundle." she said, "and

I sha'n't tell you till we get home The bachelor gressed in vain, and at last the feminine inability to keep a secret triumphed over the desire to save up the surprise.
"I've just got to tell you that I have those towels at last," she explained, triumphantly,

towels at last," she explained, triumphantly, as she watched for the pleased smiles she felt to be her due. She guessed the truth from his face.

"And I got them just when you no longer have any dishes to dry," she wailed.

Already managers of musical productions are commencing to worry about next season's chorus girls. The members of the chorus have a habit of signing contracts with half a dozen managers and then, at the eleventh hour, forming their own judgment as to which production is likely

to be the most lasting.

To offset this, some of the managers are sending out letters to their fellow managers and the agents, notifying them of the girls they hold under contract and asking them not to make engagements with these young women.

women.

In most offices this request is complied with, since the recipient of the letter is also sending out similar ones, and it looks as though the front row girl would have to make up her mind early and stick to her

In one production last season only three of the girls originally engaged went out with the company, while more than 100 girls attended rehearsals for a chorus of

"Come around for breakfast to-morrow, won't you?" she said.

"To breakfast?" he asked, plainly puzzled. "Yes, my husband and I always make it point to do most of our entertaining at that hour. We find by experience that our

friends are most interesting then."
Though the proposition struck the man as novel, it was no new custom she was inaugurating. For several years this woman, who is the wife of a lawyer and author, has made it a practise to collect at the morning meal several interesting kin. author, has made it a practise of consectation the morning meal several interesting kindred spirits. There, in her pleasant breakfast room fronting on Riverside Drive and overlooking the Hudson, she leads the conversation toward subjects of interest to her and her husband.

Returning New York friends of Maurice Grau who have seen him in Paris report that his health is not so good as it was and he has abandoned any idea of ever return-ing to business, if indeed he is ever able to come back to this country even for a social visit. He is anxious to return here once

# A WISCONSIN PIONEER

## Recommends Pe-ru-na as Being "Worth Its Weight in Gold."

Pe-ru-na is a Catarrhal Tonic **Especially Adapted to the Declining Powers of** Old Age.

Hale and hearty old age means simply healthy organs and healthy functions retained beyond the usual time.

As a rule, at the age of 60 or 70 years, the functions begin to wane and the various organs to lose their natural power.

This need not occur. At least not in all cases. Many a man and woman have retained their health and vigor much later in life. We have on file several letters from octogenarians who have found Peruna of priceless value to them as their declining years advanced.

Had Catarrh Several Winters. Two Bottles of Pe-ru-na Cured Him.

Mr. Carl Sierks, Dale, Ill., writes:

For several winters I had catarrh and coughed continually, and as I was eighty-three years old, I thought my days were numbered. I used

different remedies without success. Then I came in possession of your calendar and read the testimonials 83 YEARS OLD AND STILL HEALTHY.

the testimonials of many who had been cured by Peruna.
"I purchased two bottles of Peruna and took it according to directions. I was much surprised, for on the third day I was better, and in a week I was permanently cured.

"I hesitated to say I was cured, as I wanted to test it, but winter went by, likewise summer and part of this winter, and I am still healthy.

"I do not hesitate to recommend Peruna to all who suffer with catarrh."

Has Reached Four Score Years and Weighs 156 Pounds.

Mr. Levi Kegg, Rainsburg, Pa., writes:

"Your medicine has done me so much good I intend to keep it on hand all the time.

"I had all the symptoms of systemic catarrh. My eyes were red and inflamed, my throat, stomach and bowels troubled me, was nervous, and had nervous headaches. I am now entirely cured by Peruna.

"I am eighty years old, and I never weighed more than 140, but now I weigh 156 pounds."

A Man of or Years Finds Pe-ru-na Valuable. Mr. Ameriah Hendrickson, 88 East Gay St., Columbus, Ohio, writes the following interesting letter to The Peruna Drug M'f'g Co.:

"I shall be ninety-one years old my next birthday. My eyesight is good and I have

never worn glasses.

"I have, until within the last ten years, enjoyed very good health. My illness is

JOHN PAULIN

ESTEEMED PIONEER OWE'S HEALTH TO PE-RU-NA.

Mr. John Paulin, Sr., a pioneer of Port Washington, Wis., is held in high esteem by the residents of that place. He is one of the oldest citizens. In a recent letter he says: "I have used Peruna with good results for coughs and colds which troubled me every fall and winter. It has also cured my catarrh, which became worse when affected with but a slight cold. I am recommending Peruna because it is worth its weight in gold."

nothing special, but something resembling | my stomach and digestion and I have the weakness of old age. I find Peruna | never found any medicine as valuable as a great deal of use to me. It strengthens | Peruna."

## READY FOR THE WAR GAME.

LAND DEFENSES OF WASHINGTON TO BE TESTED BY A FLEET.

Big Guns Are Not to Be Fired, but Crews Will Have Plenty of Good Practise and Observers Will Get Ideas for a

FORT MONROE, June 10.-No fog that ever gathered in these parts was thicker than the cloud of mystery and secrecy which hovers over Fort Monroe to-night. The joint exercises of the army and navy which are to begin at midnight to-morrow are the cause. To-day Admiral Dickins. in command of the supplemented coast squadron which is to constitute the attacking party on Washington and Baltimore, held his last communication with the land MYER COHEN. Attorneys. He had been keeping bachelor hall under and to-night the whereabouts of his fleet

is unknown. For weeks the land defenses have been getting ready for the exercises, and now that their preparations are finished nobody but the powers that be knows what they are. Inquiring war correspondents are politely informed at headquarters here that there is nothing to be given out, and intimations of dire consequences to officers who are so indiscreet as to furnish information of any kind are in evidence.

The game that is to be played between midnight to-morrow and noon next Saturday is designated as "joint exercises" to distinguish it from the regulation joint maneuvers in which the army tries to get the better of the navy, and vice versa, The main purpose of the exercises is to test the efficiency of the fortifications guarding the water approaches to the national capital and to the city on Chesapeake Bay.

These are Fort Monroe, which overlooks the entrance to Hampton Roads and the bay between Cape Charles on the north and Cape Henry on the south; Forts Wash ington and Hunt, on the Potomac not far below Washington, and Forts McHenry and Howard on the upper channel leading to Baltimore. This will be no simulation of war in the broadest sense, for no vessels will be put out of action, even though constructively riddled, and none of the batteries of the coast artillery will be technically silenced.

Army observers will be with the fleet and naval observers at the forts. They will take copious notes for the future use of the two branches of the service in making and putting into effect plans for the best defense of the coast. None of the big guns on either side will be fired. Firing big guns costs much money, and the amount available for incineration this year is not large as a result of criticism of the lavish expenditures at Manassas last summer. The heavy pieces will be pointed, but only light charges in the sub-calibre attach-

light charges in the sub-calibre attachments or the regulation charges in the smaller pieces will be exploded.

Briefly, the purposes of the exercises, in addition to the principal one already mentioned, is to give the coast artillery plenty of gun practise in the daytime and searchlight practise at night, with the ships as targets in both cases. From the navy standpoint the chief ends aimed at will be practise in the operation of mine fields and in running by the land batteries. Real mines, unloaded of course, have been planted in the approaches to the several forts, but contact with them will not be

and Macdonough, and the training ships Hartford and Chesapeake.

The Puritan is manned by the District of Columbia naval militia, and the Siren. of Columbia navai militia, and the Sirein.

Hornet and Sylvia by the naval militia of Maryland. The fleet may put to sea and try to get back into the bay past Fort Monroe, or it may divide and attack at more than one point. Most of its performances will probably remain a mystery.

there being no war correspondents on any of the vessels. Even the war correspondents on land Even the war correspondents on land are materially restricted in their movements. They can get only glimpses lof the big guns, the range finders, the search-light stations and all the other mysterious things. Actually their activities will be confined to the parade ground and a small space around the base of Fort Monroe's principal flagstaff, from which they may sweep the horizon with their glasses and watch the searchlight turn night into day.

SCORE HURT IN TROLLEY CRASH. Some Coming From Princeton Game and Some Going to Princeton.

TRENTON, N. J., June 10 .- More than a core of people were injured, several fatally. in a head on collision to-night about 7 o'clock, when two big truck cars on the Johnson trolley line, each carrying more than 100 passengers, and traveling at the rate of 25 miles an hour, crashed into each other on the single track a mile east of Lawrenceville.

The car bound to Trenton contained people returning from the Yale-Pirnceton baseball game, and the other car had a party en route to Princeton to witness the presentation of "The Pretenders" by the Princeton Dramatic Club in the Casino.

The Princeton car swung around the curve and was half way down the grade before the motorman, John Phillips, noticed the oncoming Trenton car. The passengers, seeing a collision was inevitable, tried desperately to get out of the cars. Many jumped through the windows and others from the steps. The collision reduced the fronts of the cars to kindling wood. Those passengers in the fronts of the cars of course. fared worst. They were crushed and bruised and hurled in all directions.

Langhorne Johnson of this city was lifted out of the wreckage with his back broken and suffering severe internal injuries. He is not expected to live.

mines, unloaded of course, have been planted in the approaches to the several forts, but contact with them will not be considered as sending a ship out of business, the idea being only to give the navy an opportunity to display its prowess in removing the mines or countermining and destroying them.

Major-Gen. Wade, commanding the Department of the Atlantic, has arrived from Governors Island and is in general charge of the land forces, which consist of fiftyone companies of coast artillery, or about half the total strength of that arm of the service distributed at the different forts. Lieut.-Col. Potts is in command at Fort Monroe, which is regarded as the most important of the forts involved.

Admiral Dickins's fleet consists of sixteen vessels, which include the battleship Texas, his flagship; the cruisers Newark and Atlanta; the monitors Arkansas, Nevada, Puritan, Florida; the converted boat destroyers Whipple, Worden, Streat

ANOTHER NEVADA GOLD STRIKE Many Rich Veins Are Found in Rhyolite -Big Mining Men Buy.

GOLDFIELD, Nev., June 10 .- Considerable excitement exists in Rhyolite, the new metropolis of the Bull Frog mining district, seventy miles south of here, over the purchase there in the last few days of big gold mine prospects by United States Senators George S. Nixon, W. A. Clark, Kearns and William Scallon, formerly president of the Anaconda Copper Company; James Farrel of the Daly-West mine of Park City, Utah, and W. V. Rice of the Daly-West. Five million dollars has changed hands

in a week in mining deals, and mining men

here say the music has just commenced

A shipment made from the Montgomery-Shoshone mine, near Rhyolite, yielded \$2,300 a ton, and on Bonanza Mountain, a mile away, ten distinct gold bearing veins have been uncovered in a fortnight that pan gold at every point and are traced on the surface for thousands of feet. James Farrell, one of the owners of the Daly-West mine of Park City, Utah, has pur-chased 135 acres on Bonanza Mountain for himself and partners, including W. V. Rice and United States Senator Kearns. Mr. Farrell before leaving Goldfield on his way back to Salt Lake City said:

"You go into a new mining camp and you always expect to hear reports of rich strikes and great values, and as a rule when you

and great values, and as a rule when you come to trace them down not one fourth is found to be true. In the Bull Frog district found to be true. In the Bull Frog district it is very different. Nothing that I have read of the country has done justice to it. It is impossible to exaggerate the surface indications there. Mr. Shockley, a mining engineer, told me that if I would go down there he would show me more gold on the surface than I ever saw in a mining camp, and he has certainly done so and he has certainly done so.

"On Bonanza Mountain there are half a dozen or more well defined veins and every one carries values and rich values. Every vein shows free gold, ore rock that will pan gold."

Gold Chain for President Hadley. NEW HAVEN, Conn., June 10.-Prof. Samuel S. Sanford of the music department of Yale University has presented to President Hadley a gold chain with the Yale ensignia made of jewels. This will be worn during commencement week by President Hadley as part of the presidential regalia. This chain resembles a collar and is worn by presidents and chancelors of the big universities of the world.

Mrs. Annie Charret of 544 West Fortyninth street told Sergt. O'Brien at the West Forty-seventh street station last night, that four-year-old Paul Baville, a blue eyed, bow legged youngster, who had been left in her care by his mother had been kidnaped. After a little questioning Mrs. Charret, who is a French woman, said that she thought the kidnaper might be a woman named Connolly, living at 532

West Fifty-fifth street. Before an alarm was sent out for the missing boy a detective walked around to the Connolly home, and he found the missing Paul playing with three of the Connolly children. Paul was as happy as could be with his young Irish friends, and he didn't want to leave them. He was finally taken to the police station, and the Connolly children went along, too. Mrs. Charret was there and wanted to take the boy home with

Sergt. O'Brien would not let her have sergt. O'Brien would not let her have the child until she had explained more fully how the youngster came to be in her custody. It appeared that Paul's mother often went to Long Branch, and when she made these trips she left her boy behind her, generally with the Connollys. When she went away yesterday she gave the child to Mrs. Charret to care for until her return. It was the Connolly children who kidnaped Paul.

Sergt. O'Brien did not know how to

kidnaped Paul.
Sergt. O'Brien did not know how to settle the squabble, and he left it to Paul.
The boy said he wanted to go with the Connollys and they took him.

WOOD ALCOHOL BELT SCRAP. Politicians Scramble to Bail Out Prisoners Accused of Street Fighting.

The regular weekly fight in the wood alcohol belt was held vesterday afternoon and six prisoners were taken by the police of the West Forty-seventh street station. The fight occurred in Fifty-fourth street, near Ninth avenue, and some one connected with the German Lutheran Chapel there telephoned the police that the reserves were needed.

As soon as the police appeared the crowd scattered. Then some one threw a brick and the six prisoners were taken for moral effect. The McManus, who is fighting Senator Plunkitt for the leadership of the Fifteenth Assembly district, and John J. Curry, who was to be the leader of the Seventeenth district, bailed them out.

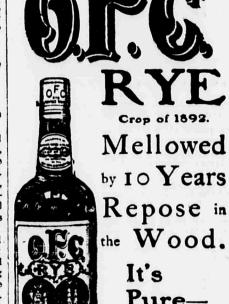

Then Assemblyman Sheehy, who doesn't like Curry's political ambitions, showed up. He seemed greatly grieved that there wasn't any one left for him to bail. He returned later with one of the men Curry had bailed. The man, who was arrested as one of the street fighters, said he had been hand ed roughly by a policeman. Assemblyman Sheehy thought he might make a complaint against the cop.

FIRE IN EQUITABLE SHAFT. Brought Croker Downtown, but It Was

Out Before He Arrived. Blue smoke floating out of the main entrance of the Equitable Building, at 120 Broadway, and a strong smell of burning wood about 8 o'clock last night sent Policeman Grayer running to a fire alarm box.

Chief Croker was there in his automobile in ten minutes, but there wasn't much for him to do. The fire was at the bottom of the elevator shaft, where a blaze had started among rubbish. Somebody had carelessly tossed a cigarette butt down the shaft, it was supposed.

Girl Dies on Her Way From Work. GLEN COVE, L. I., June 10.—Cornelia Miller, 18 years old, died suddenly this even-Miller, 18 years old, died suddenly this evening on her way home from work. She was employed by the New York and New Jersey Telephone Company, and had worked all day apparently in good health. This evening while walking along the street she fell unconscious to the sidewalk. She was taken into a house nearby, where she soon died. She was a daughter of Mrs. Thomas Miller, a widow. A sister of the dead girl died about a year ago of heart disease.

Pure-That's Sure.
